

## 2338 Mailbox Lock

The ACX 2338 Mailbox Lock Set is a perfect design for Mailbox Management System. The lock set works with ACX mailbox controller and the ACX mailbox management system.

User can be noticed that the letter received in real time, and easily check the status of mailbox's door. The lock set includes 2 sets of external sensors for temper monitoring purpose. Lock built-in with 3 sensors for tamper monitoring and mail notification.

If the e-lock of mail box is not functioning properly, user can remove the temper label on the mailbox door and open the emergency opening slot with screwdriver by manual.
