

## 8818 Network Facial Door Access Panel

### FEATURES

- User defined 128 bits master key on panel for proprietary communication
- Scramble data encryption between PC to PANEL
- Scramble data encryption between PANEL to ACX RS485 reader
- Support ACX K8 / X8 Facial Recognition multi-technologies reader
- Multi card number format, multi site code
- True IP communication, allow daisy chain connection
- Supervise I/O monitoring
- Work with ACX high security emergency key switch
- Panel Interactive message on ACX LCD reader

## SPECIFICATION

| Communication     |  | Facial Recognition Reader   |   |
|-------------------|--|---|---|
| PC to Panel       | TCP / IP, 100Mbs with 128 bits custom key for random encryption  |  <p>K8</p> | Facial Recognition + Card + Bluetooth Multi-technologies / Single technology<br>SenseTime Algorithm<br>Max. 20,000 facial templates<br>7 color circle LED<br>Buzzer control<br>Reader Cable to ACX 8818 controller - CAT 5 (70M) / CAT 6 (150M) + RS485 (shielded twisted pair cable)   |
| Max. Panel        | Depends on IP address available  |   |   |
| Wiring Methods    | 2 x RJ45 port on board;<br>Panel to hub, CAT 5 cable (max. 100 meters);<br>Panel to panel, daisy chain by CAT 5 cable (max. 100 meters)  |   |   |
| Memory (Per Door) |  |  <p>X8</p> | Facial Recognition + Card + QR Code + Bluetooth Multi-technologies / Single technology<br>SenseTime Algorithm<br>Max. 20,000 facial templates<br>7 color circle LED<br>Buzzer control<br>Reader Cable to ACX 8818 controller - CAT 5 (70M) / CAT 6 (150M) + RS485 (shielded twisted pair cable)   |
| Card Holder       | 1. Standard Version :<br>8 bytes card number only : 40,960<br>With 16 bytes card holder info : 27,306<br>2. Professional Version :<br>8 bytes card number only : 84,650<br>With 16 bytes card holder info : 56,433   |   |   |
| Transaction       | 42,816   |   |   |
| Events            | 800  | Parameters  |   |
| Panel I/O         |  | Holidays  | 100 Holiday dates   |
| Panel Input       | 1 x IN and 1 x OUT Wiegand reader or;<br>1 x IN and 1 x OUT ACX scramble RS485 reader<br>1 x door sensor input<br>1 x request to exit input<br>1 x auxiliary input<br>1 x controller box tamper input<br>1 x ACX high security key open door device<br>Power input monitoring :<br>A.C. / D.C. / Backup Battery<br>Work with ACX high security door emergency open device, couple with random key switch & reset panel | Timezone  | 80 x access control time zone<br>1 x password time zone<br>1 x electric Lock time zone<br>1 x alarm time zone<br>1 x door ajar time zone<br>1 x request to exit time zone<br>1 x twin card operation time zone<br>1 x system message display time zone,<br>work with ACX display reader<br>All timezone can be assigned from Monday to Sunday and Holiday,<br>4 intervals per day, time zone can be selected globally or individually |
| Panel Output      | 1 x E-Lock relay dry contact output, max. 10A current rating<br>1 x Alarm relay dry contact output, max. 3A current rating<br>1 x Door ajar TTL signal output, 5VDC output, 20mA<br>13VDC battery charging   | Password  | User password for time zone access<br>Global password for open door through key in PIN code directly<br>Duress password   |
| ACX Key Switch    | GREEN / RED / OFF LED indication<br>Trouble OPEN and Trouble CLOSE protection<br>Tamper protection<br>Manual Reset protection  | Power Supply  |   |
| Expansion         | 1 x RS485 serial port for expansion, software and hardware interface to other system   | Backup Battery  | 12VDC, 7AH backup battery, provide at least 4 hours operation, excludes electric lock power consumption   |
|                   |  | Operating Voltage   | 12VDC, 3A output  |
|                   |  | Others  |   |
|                   |  | Operating Temperature   | 0° to 65° C   |
|                   |  | Operating Humidity  | 0-95% relative humidity non-condensing  |
|                   |  | PCB Dimension   | 120mm x 120mm x 20mm  |
