

2309 Infrared Sensor Release

This infrared door release button can be used as a general exit release button or as an emergency release switch. The button is contactless, easy to install and integrates seamlessly with ACX Access Control System.

Unlike traditional door release buttons, an Infrared release button does not require any form of physical pressure to operate. Simply placing a hand in front of the unit will activate the sensor, and change the internal relay state to operate the electronic lock.

SPECIFICATION

2309 Infrared Sensor Release Button	
Size	86mm(L) x 86mm(W) x 29mm(H)
Input	DC12V
Contact Rating	12-28V, 3A
Output Contact	NO / NC / COM
Mechanical Life	500000 tests
Suitable for Door	Hollow Door
Operation Temp	-20° C~ +55° C (14-131F)
Suitable Humidity	0-85% (relative humidity)
Detection Range	0.1mm - 10cm
Weight	0.18kg
